

## Adult Chest Surgery

By Sugarbaker, David; Bueno, Raphael; Krasna, Mark; Mentzer, Steven; Zellos, Lambros

**ISBN:** 9780071434140

**Price:** AUS\$385.00/NZ\$424.00

**Format:** paperback

**Pub Date:** June 2009

**No of pages:** 976 **Illustrations:** 600

**Subject category:** Medical, Surgery

**Market:** Surgeons; Surgical Residents; Thoracic Surgeons; cardiac and cardiothoracic surgeons

### Description

#### The full spectrum of thoracic operative concepts and procedures at your fingertips

Here, in a single all-inclusive volume, is the sum of clinical knowledge in chest surgery, primarily drawn from the perspectives of internationally known innovators in thoracic surgery. In this text you will find all of the concepts and procedures that comprise the core of the discipline, making it unique among all other general surgery textbooks.

Completely up-to-date with the latest non-invasive techniques, *Adult Chest Surgery* features a logical organization based on anatomy, and each section has an overview chapter, which summarizes the relevant anatomy, pathophysiology, and diagnostic and procedural options. Throughout, operations and diagnostic procedures are highlighted in succinct, illustrated technique chapters, making the book ideal for practicing cardiothoracic, thoracic, and general surgeons, as well as for residents, fellows, and allied healthcare providers.

### FEATURES

- From one of the largest thoracic surgery practices and training programs in North America
- Covers the entire range of thoracic surgical techniques and management, along with crucial preoperative evaluation, staging, and postoperative strategies
- 600 illustrations commissioned especially for this book
- A timely focus on the trend toward minimally invasive, endoscopic, and robotic techniques
- Non-surgical management chapters emphasize how to successfully manage specific clinical situations
- Insightful overviews of topics related to particular surgical procedures are presented, including survival rates, indications, patient characteristics, and technical and oncological principles
- Emphasizes the basic tenets of thoracic surgery and chest disease, making it ideal for board review and recertification

## Table of contents

SECTION I: Care and Management of the Thoracic Surgery Patient  
SECTION II: Esophageal and Proximal Stomach Malignancy  
SECTION III: Esophageal Motility Disorders  
SECTION IV: Esophageal Reflux Disorders  
SECTION V: Benign, Congenital, and Traumatic Esophageal Disorders  
SECTION VI: Benign Disorders of the Upper Airways  
SECTION VII: Cancer of the Upper Airways  
SECTION VIII: Lung Cancer  
SECTION IX: Benign Tumors and Conditions of the Lung  
SECTION X: Chronic Obstructive Pulmonary Disease  
SECTION XI: Lung Infections and Interstitial Lung Disease  
SECTION XII: Lung Transplantation  
SECTION XIII: Diffuse Pleural Malignancies and Effusions  
SECTION XIV: Benign Pleural Conditions  
SECTION XV: Chest Wall and Sternal Tumors  
SECTION XVI: Benign Disorders of the Chest Wall  
SECTION XVII: Diaphragmatic Diseases, Benign or Malignant  
SECTION XVIII: Mediastinal Diseases, Benign Or Malignant  
SECTION XIX: Robotics

## Definition

**Thoracic Surgery:** is the repair of organs located in the thorax, or chest.

## Author Information

**David J. Sugarbaker**, M.D. (Boston, MA), is Chief, Division of Thoracic Surgery, Brigham and Women's Hospital, Harvard Medical School, Boston, MA.

**Raphael Bueno**, M.D. (Boston, MA), is Associate Chief, Division of Thoracic Surgery, Brigham and Women's Hospital, Harvard Medical School, Boston, MA.

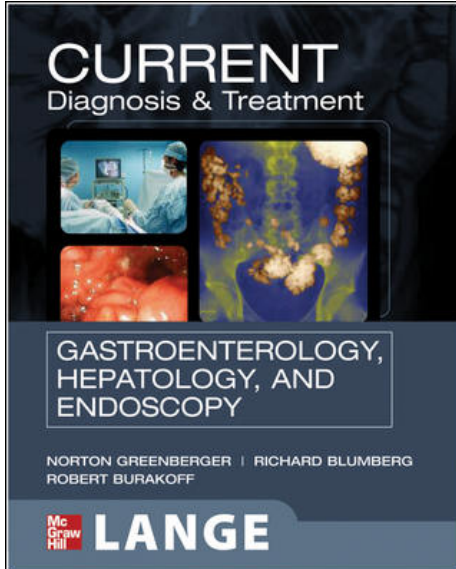

**Mark J. Krasna**, M.D. (Baltimore, MD), is the Medical Director of the Cancer Institute at St. Joseph Medical Center, and the former Head of the Division of Thoracic Surgery, Professor of Surgery and Associate Director for Surgical Oncology in the Greenebaum Cancer Center at the University of Maryland Medical Center in Baltimore, Maryland.

**Steven Mentzer**, M.D. (Boston, MA), is Associate Professor of Surgery at Harvard Medical School, member of the American Joint Committee on Cancer Task Force, the director of the Thoracic Intensive Care Unit, and the co-director of the Brigham Lung Transplant Program in Boston, MA.

**Lambros Zellos**, M.D., M.P.H. (Boston, MA), is Associate Surgeon & Clinical Co-Director Of International Mesothelioma Program and Instructor in Surgery, Harvard Medical School in Boston, MA.

## Current Diagnosis and Treatment in Gastroenterology, Hepatology, and Endoscopy

By Greenberger, Norton; Blumberg, Richard; Burakoff, Robert

**ISBN:** 9780071490078

**Price:** AUS\$110.00/NZ\$120.00

**Format:** paperback

**Pub Date:** June 2009

**No of pages:** 400

**Subject category:** Medical, Gastroenterology

**Market:** IM residents and clinicians, FP residents, GI fellows and surgeons, gastroenterologists

### Description

**The most practical, authoritative guide to managing digestive and liver diseases**

Authored by expert physicians at Harvard Medical School and Brigham and Women's Hospital, *CURRENT Diagnosis & Treatment in Gastroenterology, Hepatology, and Endoscopy* offers a streamlined, templated presentation that simplifies the diagnosis and medical management of digestive and liver diseases.

### Features

- High-yield coverage of the entire spectrum of gastroenterology and hepatology, from stomach and esophageal to pancreatic and liver disorders
- Complete review of advances in diagnostic and therapeutic endoscopy
- "Essentials of Diagnosis" bulleted lists deliver instant guidance on identifying both common and rare digestive disorders
- Over 90 full-color endoscopic and other images of GI disorders
- Over 50 radiographic images clarify the use of the many currently available imaging techniques
- Key information from related fields, including GI surgery, and subspecialties such as liver transplantation, bariatric surgery, inflammatory bowel disease, and motility disorder
- Emphasizes the basic tenets of thoracic surgery and chest disease, making it ideal for board review and recertification

## Table of contents

Acute abdominal pain	Colon cancer
Acute Upper GI bleeding >p> Acute	HNPCC
Lower GI bleeding	VI Pancreas
Inflammatory bowel disease	Acute Pancreatitis
Immunologic considerations	Chronic Pancreatitis
Medical considerations p> Surgical	Autoimmune pancreatitis
considerations	Pancreatic Neoplasms
Acute diarrheal disorders	VII General considerations
Mesenteric Vascular disease	Therapeutic endoscopy
I complications Pregnancy	Obesity Medical & surgical
Hepatic Complications Pregnancy	GI Manifestations of the
Imaging studies in GI/Liver	Immunocompromised host
II Esophageal Diseases	VIII. Liver & Biliary tract
GERD	Approach to the patient with liver
Barrett's Esophagus	disease
Esophageal Motility disorders	Acute Liver Failure
Esophageal tumors	Viral Hepatitis A_B-C
III. Stomach	Chronic non viral hepatitis (PBC,
Peptic ulcer disease	Autoimmune, Wilsons, etc)
ZE syndrome	Hemochromatosis
Non Ulcer Dyspepsia	Alcoholic Liver disease
Disorders Gastric emptying	NAFLD
IV Small bowel	Complications Chronic liver disease
Celiac Sprue and other	Drug Induced Liver disease
Malabsorption disorders	Liver Neoplasms
V Colon/Rectal diseases	Gallstones and complications
Diverticular Disease	Diseases of the bile ducts
Anorectal disease	Liver Transplantation

## Definition

**Gastroenterology:** The medical specialty devoted to the study, diagnosis and treatment of disorders of the digestive system.

**Hepatology:** The field of liver disease.

**Endoscopy:** is a broad term used to describe examining the inside of the body using a lighted, flexible instrument called an endoscope.

## Author Information

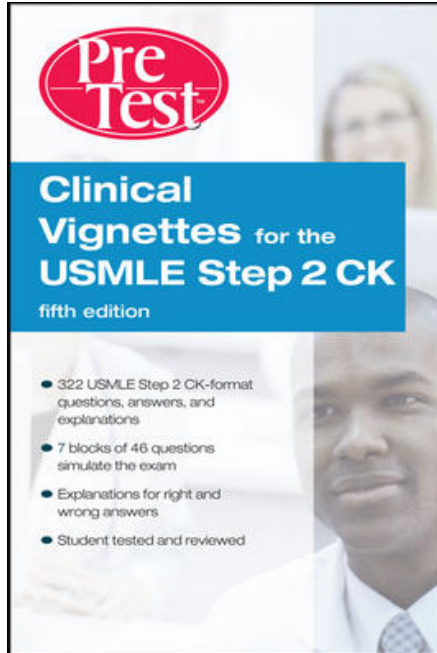

**Norton Greenberger, MD**, is a senior physician at Harvard and former president of the American Gastroenterological Association, the American College of Physicians, the Central Society for Clinical Research, and the Association of Professors of Medicine. He is the author or coauthor of more than 230 publications, including chapters in major medical texts such as *Harrison's*.

**Richard Steven Blumberg, MD**, is Chief of Gastroenterology, Hepatology, and Endoscopy Division at Brigham and Women's Hospital.

**Robert Burakoff, MD**, is co-editor-in-chief of the *Journal Inflammatory Bowel Disease* and a member of the editorial boards of the *Journal of Clinical Gastroenterology* and *Seminars in Inflammatory Bowel Disease*.

## Clinical Vignettes for the USMLE Step 2 CK: PreTest Self-Assessment & Review 5/e

By McGraw-Hill

**ISBN:** 9780071604635

**Price:** AUS\$45.00/NZ\$50.00

**Format:** paperback

**Pub Date:** June 2009

**No of pages:** 400

**Subject category:** Medical, Test Preparation & Review

**Market:** US medical and foreign medical graduates preparing for the USMLE Step 2 CK; osteopathic medical students

### Description

The perfect way to assess your knowledge before taking the USMLE Step 2 CK! ***Clinical Vignettes for the USMLE Step 2 CK: PreTest*** is a compilation of the 368 clinical vignette questions from each of ***McGraw-Hill's PreTest*** clinical review books. The book is divided into eight blocks of 46 questions, just like the actual exam.

***Clinical Vignettes for the USMLE Step 2 CK: PreTest*** provides one complete board exam to simulate the exam-day experience. It includes time allotments at the beginning and halfway points of each question block to simulate the actual exam's time constraints. This is *the* comprehensive practice exam to take before you take the test.

### Features

- One complete practice exam divided into 8 blocks of 46 questions, just like the actual USMLE Step 2 CK
- Timed sections for each block just like the board exam, and "stopwatch" reminders halfway through each block to keep you on task.
- 368 questions in clinical vignette format based on the NDBE™ published content outline
- Answers referenced to core texts and journals for further study

**Table of content**

1. Block 1 46 questions
2. Block 2 46 questions
3. Block 3 46 questions
4. Block 4 46 questions
5. Block 5 46 questions
6. Block 6 46 questions
7. Block 7 46 questions
8. Block 8 46 questions
9. Block 1 Answers, Explanations, and References
10. Block 2 Answers, Explanations, and References
11. Block 3 Answers, Explanations, and References
12. Block 4 Answers, Explanations, and References
13. Block 5 Answers, Explanations, and References
14. Block 6 Answers, Explanations, and References
15. Block 7 Answers, Explanations, and References
16. Block 8 Answers, Explanations, and References
17. Bibliography

## Urology Board Review: Pearls of Wisdom, 3/e

Stephen Leslie

Imprint: BMP

**ISBN:** 9780071605830

**Previous Edition ISBN:** 9780071464543

**Price:** AUS\$117.00/NZ\$129.00

**Format:** Paperback

**Pub Date:** June 2009

**Subject Area:** Exam Preparation and Review

**Pages:** 331

### Description

*5,000 quick-hit Q&As to help you ace the Urology boards!*

Like flashcards in a book, this quick-hit question and answer review for the urology boards provides intense, streamlined review and is the perfect compliment to larger urology and surgery texts. You'll find more than 5,000 Q&As with only the right answer provided-there are no multiple-choice distracters-so there's no chance of an incorrect answer staying in your mind.

### Key Features

- New to this edition: Questions on new technologies such as robotics and laparoscopic surgery, advances in cancer chemotherapy, medical urology, and complications related to new medicines (such as Topamax).
- Emphasis is on distilling key facts and clinical pearls that are essential for exam success

### Market

Urology Residents

### Table of Contents

1. Urography and Cystography 2. Radionuclide Studies 3. Retroperitoneal Anatomy 4. Surgical Anatomy of the Pelvis 5. Embryology of the GU Tract 6. Congenital Disorders of the Lower Urinary Tract 7. Congenital Disorders of the Upper Urinary Tract 8. Prune Belly Syndrome 9. Cryptorchidism/Diagnosis and Management 10. Megaureter, Ectopic Ureter, Vesicoureteral Reflux, and

Ureterocele 11. Urological Emergencies in the Newborn 12. Enuresis 13. Intersex 14. Neurogenic Voiding Dysfunction 15. Urodynamics 16. Urethral Strictures 17. Prostatic Hyperplasia 18. Female Incontinence 19. Upper Urinary Tract obstruction 20. Intestinal Segments in Urology 21. Urinary Diversion and Undiversion 22. Male Infertility 23. Sexual Function and Dysfunction 24. Adult Urinary Tract Infections 25. Cystitis, Interstitial, Hemorrhagic, Radiation, and Viral 26. Prostatitis 27. Genitourinary Tuberculosis 28. Urolithiasis Metabolic Diagnosis and Medical Management 29. Genitourinary Trauma 30. Adrenal Physiology 31. Adrenal Tumors 32. Renal Physiology 33. Renovascular Hypertension 34. Renal Transplantation 35. Benign Renal Cystic Disease 36. Renal Tumors, Adults 37. Renal Tumors, Children 38. Renal/Ureteral Stone Surgery 39. Tcc of the Upper Tracts 40. Tcc of the Bladder 41. Squamous Cell Carcinoma and Adenocarcinoma of the Bladder 42. Urethral Lesions 43. Diagnosis and Staging of Prostate Cancer 44. Radiation Therapy for Prostate Cancer

### **Definitions**

**Urology:** the branch of medicine that deals with the diagnosis and treatment of disorders of the urinary tract or urogenital system

### **Author Biography**

**Stephen W. Leslie, MD**, is affiliated with Lorain Surgical Specialties in Lorain, Ohio.

## Essentials of Pharmacology for Nurses and Midwives

By Paul Barber and Deborah Robertson

*Both at the University of Chester, UK*

Paperback ISBN: 978-0-335-23404-2

Paperback Price: AUS\$62.00/NZ\$68.00

Hardback ISBN: 978-0-335-23403-5

Hardback Price: AUS\$180.00/NZ\$199.00

Edition: 01

Pub Date: June 2009

No of pages: 180

**Subject category:** Humanities and Social Sciences - Health and Social Welfare - Nursing

**Market:** nursing students

*"This book is great! The style of writing is easy to read and a first year student could easily read this without becoming confused by long words and unfamiliar terminology. The book includes lots of features that are useful for exam revision – including tips, calculations, multiple choice questions and learning points. A must have for textbook for all nursing students."*

*Joanne Starkes, Nursing student, Bournemouth University*

### Key features

### Key new nursing title

- User-friendly introductory textbook for the pre-registration nursing student, introducing principles and practice of pharmacology
- Focuses just on what pre-reg level students need to know – information is presented in easy, accessible, quick reference format (e.g. lists, bullets, flow charts etc)
- Coverage of maths calculations in each chapter, which is a key part of pharmacology courses!
- Each chapter includes: 2-page Key Learning Points checklist, Patient Case Scenarios, 10 Multiple Choice Questions, 10 Calculation Skills Questions. Answers are also included at the back of the book.

## Table of contents

Pharmacokinetics and pharmacodynamics  
Adverse drug reactions and interactions  
Local anaesthetics and analgesics  
Anti-microbials  
Anti-inflammatory drugs  
Anti coagulant therapy  
Drugs used for chronic conditions  
Drugs in mental health  
Patient concordance  
Legal and professional issues

## Definitions

**Pharmacology:** The study of drug action. The study of drugs and the body's reaction to drugs.

## Author Information

**Paul Barber** is a Registered Nurse (Mental health and Adult), Senior Lecturer and is module leader for the following modules at University of Chester School of Nursing: Key Skills; Principles of Pain Management; Perspectives in Pharmacology: The delivery of care in continuing care contexts. He is also Programme Leader for Post graduate certificate in Infection prevention and control and is a Practice/Education Facilitator for the School.

**Deborah Robertson** is Senior Lecturer at University of Chester School of Nursing, and is the Deputy Programme Leader Non Medical Prescribing. Her primary focus is pharmacology education pre and post registration and post graduate. Current research activity includes evaluation of non medical prescribing practice, participation in a North West Numeracy Consortium with the Strategic Health Authority to address issues of drug calculation in nursing.

## Mental Health and Well Being in Later Life

By Mima Cattan (ed)

*Leeds Metropolitan University, UK*

**Paperback ISBN: 978-0-335-22892-8**

**Paperback Price: AUS\$57.00/NZ\$63.00**

**Hardback ISBN: 978-0-335-22891-1**

**Hardback Price: AUS\$170.00/NZ\$190.00**

**Edition:** 01

**Pub Date:** June 2009

**No of pages:** 184

**Subject category:** Humanities & Social Sciences - Health & Social Welfare - Nursing

**Market:** Students on Mental Health/Mental Health Nursing modules focusing on lifespan issues or Older Adults specifically.

### Key features

The promotion of mental health and well-being is acknowledged as a key area internationally, nationally and locally. This book:

- Provides a comprehensive text on mental health and well-being in later life
- Demonstrates how theory and health promotion principles link with the promotion of mental health and well-being in later life
- Gives examples of good practice and effective interventions, including culturally sensitive approaches to promoting mental health among older people.

### Table of contents

Introduction

What is mental health and mental well-being

Theoretical perspectives of ageing and health promotion

The application of policy and practice in the promotion of mental health and well-being in later life

Work, retirement and money

Relationships

Keeping active [physically and mentally]

Maintaining capability

Retaining independence and control
